THINKING BIGGER

Reality = Choice & Opportunity:

Oil and Debt are the Drivers of the World Economy Going Forward.

**Mathematical and Logical Imperatives Dictate
that Driver will be Down.**

The World is Leveraged 100-1 and EROEI is in Decline.

**This is why there are no “Political Solutions” –
Deflation is the Natural and Unstoppable Economic Force that
Liquidates the Insolvent and Excess out of the Economy.
And Geology doesn’t respond to Political Machinations.**

For Mexico, there is an Economic Solution.

**Mexico Needs to Divert Resources and Capital away from
Passive Real Estate and into Energy Infrastructure.**

**The Most Important thing of All to understand is that
All the Resources and Capital Necessary to
Eliminate Oil Dependence ARE ALREADY HERE in the Mexican Economy.**

**The Key is to Restructure the Energy Complex to Extract
a Higher Yield for Mexico – and there is more than enough to
Eliminate the Need for Oil.**

THINKING BIGGER

**The US Military is Actively Expecting and Preparing for
“Resource Wars” in 10 Years or Less.**

When you understand Geology and EROEI, you Know Why.

Mexico in the Right Place:

**The Two Most Important Geopolitical Points
for Mexico are this:**

**The Dominant Driver of Political Relations between the
US and Mexico is the Fear of a Strong and Independent Mexico
(“The Alamo Syndrome”); and**

**US Dominance of the Western Hemisphere is the
Rock Solid Core of US Policy from the c.1830’s Forward –
Bigger than Any One or Any Group.**

The Key for Mexico is Eliminate Dependence on Oil Without Delay.

**If and when the “Resource Wars” do come, Mexico won’t Need Oil –
and US Dominance of the Western Hemisphere makes
Mexico Off Limits.**

Mexico Will be Well Positioned.

THINKING BIGGER

A Vision and its Flight Plan:

Build a Business and Financial Conglomerate similar to a firm like “Bechtel”.

A Firm that can Build “The Jalisco Canal”.

And Much More.

**This will Naturally Draw Capital and Activity –
which will build its Own Momentum – because
New Energy is like Injecting Adrenaline in the Economy.**

This is where the Money is at: Energy Efficiency and Energy Growth.

**In the Next Ten Years this Conglomerate Focuses on
Pure Energy and Water Infrastructure;**

**As it Grows and Eliminates the Dependence on Oil,
the Conglomerate Shifts Direction back into adding
to the Real Estate Stock, which will have Secular
Demand Momentum during the Years of the Energy Focus.**

**The Overstock that now exists will have been Smoothly Absorbed –
but in a Way that helps Mexico, not Hurts it.**

THINKING BIGGER

**The Deflation of Real Estate Values will be Lessened by
reducing Supply Momentum Now – A Virtuous Economic Effect.**

**That Capital and Resources will still be in Business –
except through Leadership it will be Focusing on
Energy, what we Truly Need.**

**On the other Side of all of this, we have a Strong Energy Complex,
and a Solid Demand for New Structures to be Fed that Energy.**

**It is a Matter of Leading the Nations Capital in the
Right Direction for the General Interest of the Entire Society.**

This is a Winner for Mexico.

It turns the Lemons of Oil Dependency & Debt Deflation into Lemonade.

**And It Plays all of Mexico's Cards in a Way that
Leaves Mexico Economically Vital and Geopolitically Secure.**

I Invite those who have the Vision to See What is Possible:

**Let's Bring the Vision, Capital and Ganas Together
to Make this a Reality.**
